The Karger Nutrition Package presents a balanced selection of peer-reviewed eJournals, established eBook series and individual eBook titles covering key topics such as foods, nutrigenomics, energy metabolism, biofunctional compounds, dietetics, obesity and clinical nutrition.

The titles in this special package report the latest progress in nutrition research and evaluate its impact on medical, economic and social issues, providing essential reading for researchers, specialists and practitioners in hospitals, research centers, governmental institutions and the nutrition industry.

Package prices apply only to new customers with no existing subscriptions for included titles.

Customers with active subscriptions, standing orders or individual eBooks from this package, please contact us at collection@karger.com for a customized offer!
